: December 29, 2021 -- Moody's Investors Service ("Moody's") affirmed the Baa1 rating on Rhode Island Airport Corporation's \$59.8 million outstanding senior revenue bonds. The airport has a total of \$172.3 million in outstanding revenue bonds. The rating outlook is stable.

The Rhode Island Airport Corporation (RIAC)'s Baa1 rating reflects the relatively stable base of demand from a population of 1.7 million and significant higher education, health care and government institutions at the core of RIAC's primary catchment area. The rating incorporates demonstrated strong management of airline costs over the past years, a balanced air service profile and the convenience and proximity of the Rhode Island T.F. Green International Airport (PVD) to the Providence metropolitan area, helping to support a niche position within a competitive regional market; the significant size and market share growth of the large hub Logan International Airport (BOS) remains a key challenge.

The stable outlook reflects our expectation that RIAC will continue to rely on its strong liquidity as the airport continues to recover from the pandemic. The strong liquidity, further boosted by federal relief grants and TSA reimbursement, manageable capital needs and no additional debt will support financial flexibility over the next 12-18 months.

: 29 Dec 2021: Fitch Ratings has affirmed Central Iowa Power Cooperative's (CIPCO) Issuer Default Rating (IDR) at 'A'. The Rating Outlook is Stable.

The affirmation reflects CIPCO's strong revenue defensibility and Fitch's expectation that CIPCO's leverage ratio will remain below 8.0x over the medium to long term. Financial metrics are likely to weaken in fiscal 2021 due to elevated purchased power expenses related to the February 2021 winter storm event; however, Fitch believes metrics should improve in 2022 as the utility's operating cash flow returns to historical levels. Additionally, CIPCO has taken steps to reduce its risk exposure to market prices with recent additions to its power supply including solar, wind and natural gas-fired generation. Fitch expects CIPCO will continue to provide a low cost and diversified power supply.

The 'A' rating also considers the aggregate credit quality of CIPCO's members, which generally exhibit strong economic metrics and midrange financial performance. 惠誉官网

: December 29, 2021 -- Moody's Investors Service ("Moody's") has today affirmed Flutter Entertainment plc's (Flutter or the company) corporate family rating (CFR) at Ba1 and its probability of default rating (PDR) at Ba1-PD. Flutter is an Irish-based global gaming operator. The outlook on the ratings remains stable.

The rating action follows Flutter's announcement on 23 December, that the group will acquire Sisal Group S.p.A. (Sisal, B1 review for upgrade), an Italian-based gaming operator. The consideration for the transaction is around GBP1.6 billion, which will be initially financed by a bridge facility. The transaction is expected to close in the second quarter of 2022. (穆迪官网)

: December 30, 2021 Fitch Ratings assigned Yandex NV for the first time a long-term issuer default rating (IDR) of BBB with a Stable outlook. In addition, Fitch has assigned a 'BBB' rating to the company's senior unsecured debt.

Yandex is a leading Russian internet search company with a strong IT innovation capability that has enabled it to rapidly expand into other segments using technological capabilities such as online taxi service and e-commerce.

Yandex's strong market position as the largest Internet search portal in Russia ensures strong cash flow and the accumulation of a significant net cash position on the balance sheet, which, in turn, allowed the company to form a significant presence in other related technology-using segments. 惠誉官网

28 Dec 2021: Fitch Ratings has downgraded China-based Bright Scholar Education Holdings Limited's Long-Term Issuer Default Rating (IDR) to 'B' from 'BB-'. Fitch has also downgraded the senior unsecured rating and rating on the company's USD300 million 7.45% senior notes due 2022 to 'B' with a Recovery Rating of 'RR4' from 'BB-'. Fitch has also maintained the Rating Watch Negative (RWN) on Bright Scholar's ratings.

Fitch placed Bright Scholar on RWN on 22 November 2021 following the company's proposal to dispose of its international and bilingual schools and not-for-profit kindergartens to a charitable organisation to comply fully with China's Implementation Rules of the Law for Promoting Private Education effective 1 September 2021. The disposal is subject to shareholders' approval and an extraordinary general meeting was
